## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 51-55 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest a method for forming an image by a scanning charged particle apparatus, having steps of selecting a pixel having a larger focus evaluation value than at least one other pixel from among pixels at same coordinates of the two dimensional images and synthesizing the selected pixels for each of the plurality of different image points two dimensionally into a composite image in combination with the remaining elements of claim 1.  
  
The prior art searched and cited failed to also teach or fairly suggest a charged particle beam apparatus having an image processor for forming an image based on the particles detected by the detector, wherein said image processor memorizes a plurality of two dimensional images formed at different focus heights, for each of a plurality of different image points, selects a pixel having a larger focus evaluation value than at least one other pixel from among pixels at same coordinates of the two dimensional images, and forms the image by arranging the selected pixels for each of the plurality of different image points two dimensionally in combination

with the remaining elements of claim 51. The prior art searched and cited failed to teach or fairly suggest a charged particle beam apparatus having a controller for adjusting the objective lens for adjusting a charged particle beam to a focus and computing a focal depth for an image if taken at that focus and shifting focus of the charged particle beam by an amount equal to or less than the computed focal depth in combination with the remaining elements of claim 52. Claims 53-55 are allowable because of their dependencies upon claim 52.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
